

**2021 RALLYCROSS FEST
COMPETITOR GUIDE
July 22-25, 2021**

WELCOME

Dear Rallycross Fest Competitors,

We hope you are ready for an amazing few days of rallycross! We certainly are thrilled to be able to bring everyone together for the largest rallycross in North America for the second year in a row. More importantly, we are able to reopen to spectators this year! Rallycross Fest is all about celebrating this sport and the community that surrounds it so being able to include the whole community after a year of competitor-only events is really special.

For those who have attended this event in the past, there is one big change you will notice. We expanded the race day into a race weekend to accommodate all 200 competitors. This means that you will race on a different course each day. Times are cumulative over both days with awards for the top 3 in each class. As always, we will wrap the event with the podium celebration which will include champagne so start practicing your bottle-popping technique now!

Thank you all for being a part of this event and a part of this community. We couldn't do what we do without you!

Pre-Race Vehicle Drop Off

You may drop your vehicle at DirtFish on Thursday or Friday anytime between 8am – 6pm. You may park your truck/trailer/car in the overflow lot directly to the right of the driveway when you reach the school building. Do not park in the main school parking lot (directly in front of the school, left of the driveway).

When you leave your vehicle, please pull off to the right side of the parking lot. Leave the side closest to the course/planner building open. There is also a helipad (notated with a dotted line/"H") that must be kept clear as well. Keep in mind that this will NOT be your paddock area – on race day, you will need to move your truck/trailer/vehicle to the lower paddock area.

If you would prefer to drop your vehicle/trailer in the paddock area, you may do so between 4-6pm on Thursday and Friday. No access to paddock will be allowed outside of those hours.

NOVICE CLASS DETAILS

Novice Class – Friday, July 23th

The Novice class consists of a classroom session where we will cover Rallycross rules, car control and driving techniques. After the classroom session, you will practice different elements on course in your own car. The day will culminate in a small rallycross course for you to put your new skills into practice.

Lunch will be provided. We do our best to meet different dietary restrictions – if you have food allergies, please contact us in advance to confirm what options will be available for you.

When you arrive for the novice class, you will sign a waiver and follow instructions where to park for tech inspection. If you already completed tech inspection during the advanced school, you do not need to do it again. You will only need to pass tech inspection one time during the entire weekend and you may leave your vehicle/trailer in the paddock area overnight.

**Please note that guests are not permitted during the class and must remain offsite during the day. This includes spouses, co-drivers, family and friends. We recommend that they enjoy a local hike, a walk on Snoqualmie Valley Trail (which can be accessed down the road from Dirtfish) or check out the Snoqualmie Falls.*

Schedule

ADVANCED CLASS DETAILS

Advanced Class – Thursday, August 22nd

The Advanced class consists of a classroom session where we will cover advanced driving techniques. After the classroom session, you will practice different elements on course in your own car. The day will culminate in a small rallycross course to put the skills together and practice in a race-like setting.

Lunch will be provided. We do our best to meet different dietary restrictions – if you have food allergies, please contact us in advance to confirm what options will be available for you.

When you arrive for the novice class, you will sign a waiver and follow instructions where to park for tech inspection. You will not have to pass tech inspection again on Race Day and you may leave your vehicle/trailer in the paddock area overnight.

**Please note that guests are not permitted during the class and must remain offsite during the day. This includes spouses, co-drivers, family and friends. We recommend that they enjoy a local hike, a walk on Snoqualmie Valley Trail (which can be accessed down the road from Dirtfish) or check out the Snoqualmie Falls.*

What to Expect

Arrival: When you arrive, we will have you sign a waiver and direct you to paddock. Please arrive with enough time to prep your car, pass tech inspection and complete a course walk. **Tech inspection will close at 9am. No late inspections will be permitted.** It is your responsibility to ensure that you are ready to race on time.

Tech Inspection & Check In: Once parked, set up your paddock area and get your car ready for tech inspection. Drive to tech inspection with your helmet and drivers license. Your car will be evaluated for safety. Some example check points are:

- no loose items in car
- number & class are on vehicle in contrasting color
- battery is secure
- positive battery terminal is covered
- brake pedal is functioning
- gas pedal returns
- wheel bearings are not loose
- seatbelts
- helmet meets requirements (drivers must bring their own helmet)

When you pass, you will be directed to registration to get checked in. We will verify your drivers license and competition number.

Competition Numbers: You must race with your number visible and clear on both sides of your car. This is how your times will be assigned to you. If you are sharing a car with another person, you must compete with a

different number than them. Please be prepared to change your numbers between each run. You may use magnetic numbers or use a piece of tape that is sufficient to make it clear who is racing.

You can check your race numbers here:

<https://www.motorsportreg.com/index.cfm/event/event.status/uidEvent/09F91132-E050-7ABE-E8D99CF480C57C10> If you need to make changes, please email us before race week.

Course Walking: Before racing, take time to walk the course. The course is marked with cones that direct you where to go. It's important to take time and get a feel for the course before getting behind the wheel. You will get one slow speed lap in your car before racing (parade lap).

Video Driver Meeting (REQUIRED): To minimize contact, we will hold a virtual driver meeting instead of an in-person meeting at the event. You must watch the video meeting prior to competing. The virtual meeting video will be emailed to you the week prior to the event.

Competition Rules: It is your responsibility to know the rules in advance of the event. Please take some time to review them! They can be found on our website here: <https://www.nwrallyassociation.com/rallycross-rules>

Friends, Family & Pets:

- Pets must be on a leash and you are required to pick up after them (they are not allowed on course with you during your work assignment).
- Family members and spectators are permitted at this event.
- Guests may ride along with you as long as they have a helmet with a SA/M rating of 2005 or newer.

Packing List: It is looking like the weekend will be a warm and sunny one so this packing list is drafted with that in mind. Please keep an eye on the forecast – it can change quickly in these parts.

Clothing

- Layers! Even though the high temperature may be 70-80 degrees, the mornings will still be very chilly. Wear/bring layers so that you are warm in the morning and cool in the afternoon.
- Rain shell – It's the northwest so there is ALWAYS a chance of rain.
- Hat – sun/rain protection
- Comfortable shoes for driving and your work assignment

Personal Gear

- Tent/EZ-UP
- Chair
- Cooler with drinks/food. We will have J&J BBQ onsite again serving up lunch (for purchase).
- Sunscreen, chapstick, etc.
- Hand wipes/sanitizer
- Mask

Two Courses: You will compete on two different courses, one course per day. Course 1 will be in the skid pad area to the north of the planer building. Course 2 will be on the back half of the property.

Run/Work/Rest: Drivers will be broken into two main groups - Group 1 and Group 2. Those groups will be further broken down by class. Each day, drivers will have a run, work and rest session. You will be given a work assignment for your work session that you are required to perform. Your rest session should be used to eat & drink, take care of any repairs/maintenance and watch some racing!

SPECTATOR INFORMATION

Spectators are welcome and encouraged to join us on Saturday-Sunday, July 24-25th for the race weekend! There is no charge to enter – simply sign a waiver then come hang out. You will be directed to park in the upper lot of DirtFish then can walk down to the lower, race area. Please follow any instructions or request from staff, volunteers and other workers – their job is to keep you safe!

Note: No guests or spectators permitted during the workshops. This includes spouses, kids and co-drivers. Only registered drivers may attend the workshops.

We'll have Northwest Rally swag by the course and on your way in or out, be sure to stop by the DirtFish school building to check out their great collection of racing memorabilia and get your own DirtFish gear!

Questions? Please don't hesitate to email us: info@nwrallyassociation.com. During the race weekend, we will be slow to respond.

COVID-19 SAFETY MEASURES

This event is open to competitors and spectators. Please wear a mask at the event if you are not vaccinated. Unvaccinated attendees may choose to not wear a mask. As always, stay home if you have any of these [COVID-19 symptoms](#).

QUESTIONS & MORE INFO

If you have any questions, don't hesitate to reach out to us at info@nwrallyassociation.com or visit www.nwrallyassociation.com for more information, rules and FAQs.
